FEEDER STACKER

The ERF-80R feeder stacker comprises of a large feeder hopper that transfers material onto an 80ft conveyor, all fitted to a slew ring assembly allowing for full 360° radial. Designed to allow operators to stockpile/transfer material it eliminates double handling of materials. Its maneuverability makes this unit very versatile and makes it ideal for barge loading and unloading, rail loading / unloading and stockpiling, the ability to move parallel enables the operator to maneuver the unit parallel to the vessel meaning the machine can crab alongside.

The unit can also be compacted for transport on one low loader for easy site to site transport.

FEATURES

- Dual hydraulic main drive system
- Hydraulic folding heading section for transport minimizing setup time
- Hydraulically adjustable discharge height up to 10 meters
- High powered slew gearbox and slew ring assembly (Radio Remote as standard)
- 4 Meter tracks for superior maneuverability and stability
- Radio remote rear stabilizing legs for easy operator use
- Radio remote tracking
- Fuel efficient hydraulics system
- User friendly hydraulic controls
- Hopper extensions increasing capacity

McCloskey Environmental

48' MAIN CONVEYOR

- Heavy duty main 48" (1200mm) wide conveyor.

HOPPER EXTENSIONS

- Hopper greedy plates increasing capacity.

HYDRAULIC FOLDING CONVEYOR

- Hydraulic folding heading section for transport minimizing setup time.

LARGE FEEDER

- Steel hopper allows operators to load 10m³ of standard Aggregates with hopper extensions option to increase capacity.

TRACKED MOBILITY

- Fully portable tracked unit with 4m wide tracks, allowing for maximum on-site stability.

DIMENSIONS AND CAPACITIES

ENGINE	CAT 4.4 100KW (127HP) LRC/FIXED SPEED	TRANSPORT WIDTH	2.9M (9'-5")	WORKING LENGTH	26.3M (86'-4")
TRANSPORT HEIGHT	3.2M (10'-6")	WEIGHT	27500KG APPROX.	MAX. PRODUCTION RATE	800 MTPH (880 TPH)
TRANSPORT LENGTH	19.4M (63'-7")	WORKING HEIGHT	10.5M (34'-6")
